He is very punctual in labs. I like how he tried his best to thoroughly go through the midterm. I wish he could improve on the tutorial by making it more inclusive since there would always be the same few people talking. Maybe make interactive activities to motivate everyone to participate.

GENERAL COMMENTS

1. What do you consider to be the strongest and weakest features of the T.A?

1. TA has extensive knowledge on the subject, he manage. to explain & correct all the class comments & exercises. He's also quite likeable, making tutorial enjoyable to attend to. Perhaps he could improve techniques for student engagement, since only myself & couple other students regularly participated in the class activities. Its not bad, but relative to all his other skills, I would consider it the weakest.

No suggestions.

Good TA. Passionate

A bit nervous and you should learn to relax a bit. Teach as you believe the pace should be based on material you are trying to cover, other wise you will run out of time for important material. But good TA overall!

COMMENTS:

The TA clearly teaches the concept.

The only weakness I can think of is time management

The suggestion will be to be please be mindful of the time as TA often went above the class end time, and I had to rush to next tutorial which takes exactly 7 minutes to get there.

Sam is knowledgeable on this filed and understand the materials, but hard to understand his explanation.

Be more concise and straight forward

Good TA, explain concept well.

All good

Nice TA. Very knowledgeable

Good TA!
